

# Create Your Own Popsical Memory Game

## Supplies:

Printer  
Paper  
Crayons or Markers  
Scissors  
Glue  
Popsicle Sticks

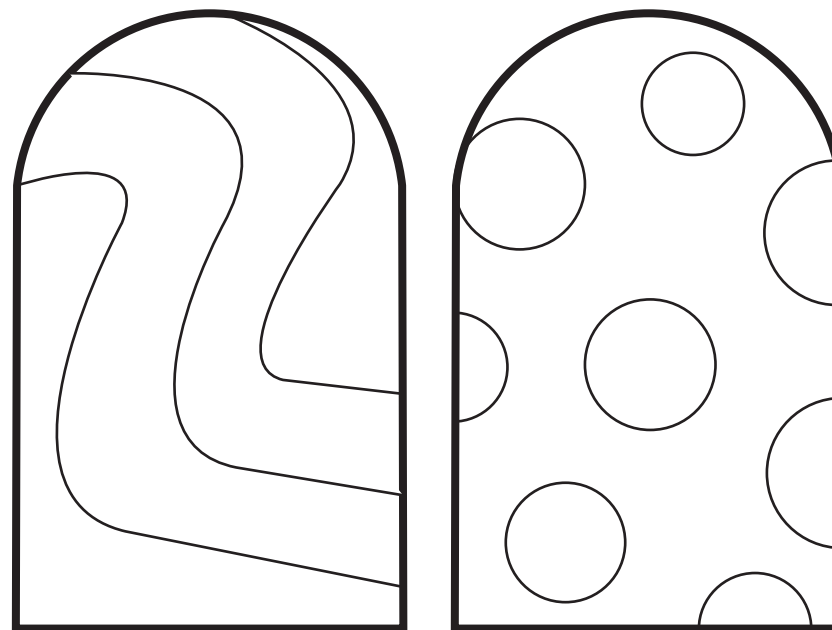

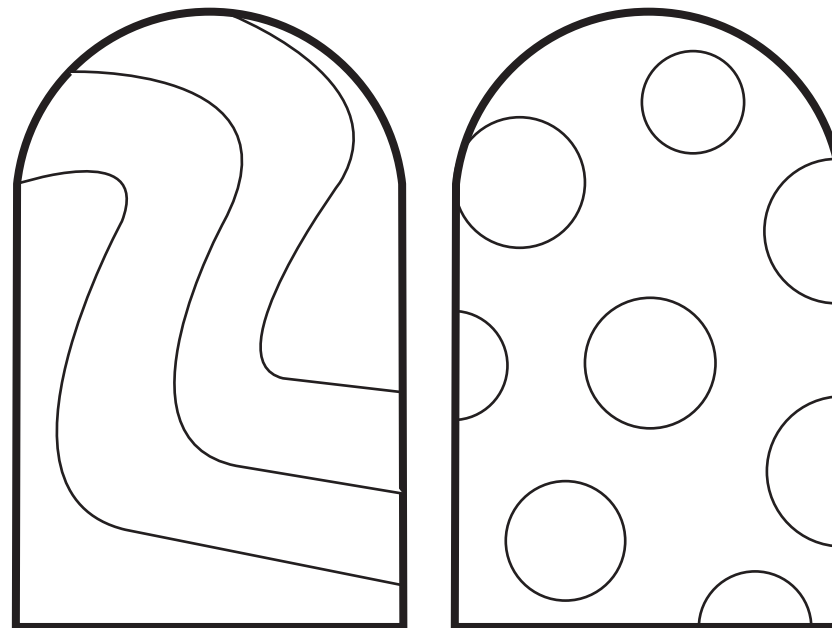

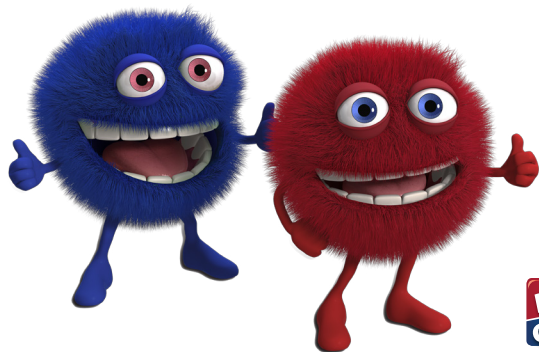

## Directions to make game:

Print the patterned popsicle shapes. Color the matching patterns the exact same way using the exact same colors. Make sure to print four sets of the blank popsicle shapes to use as the "back" of each piece. Color all the popsicle backs a single color. Cut out all the popsicle shapes and glue each patterned shape to a stick, using a plain-colored popsicle as the back – as shown in the picture.

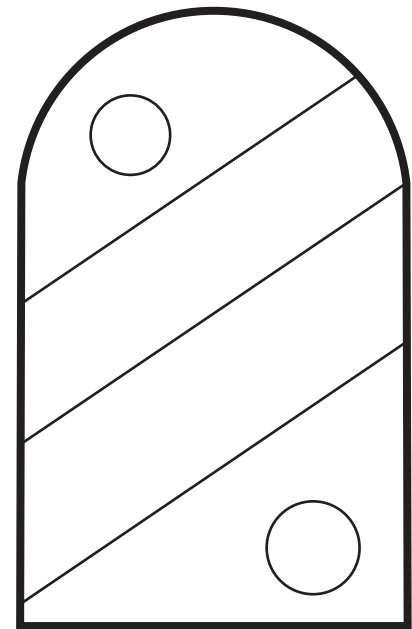

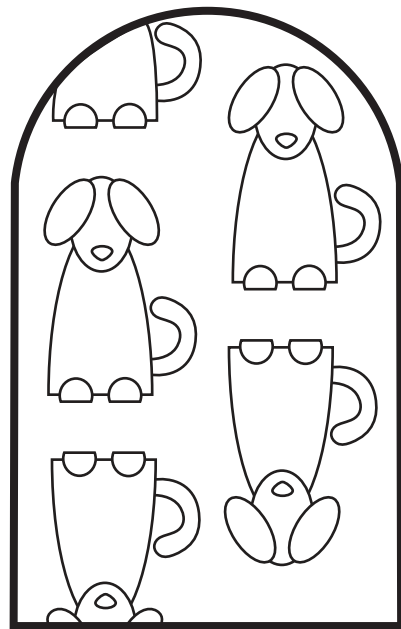

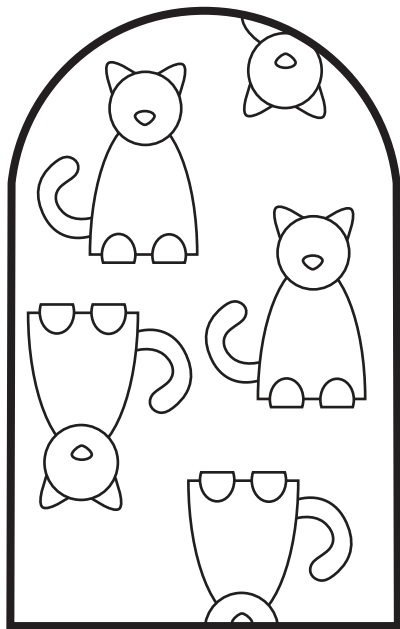

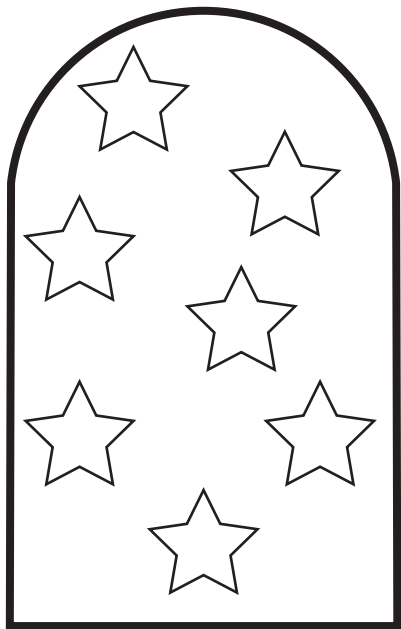

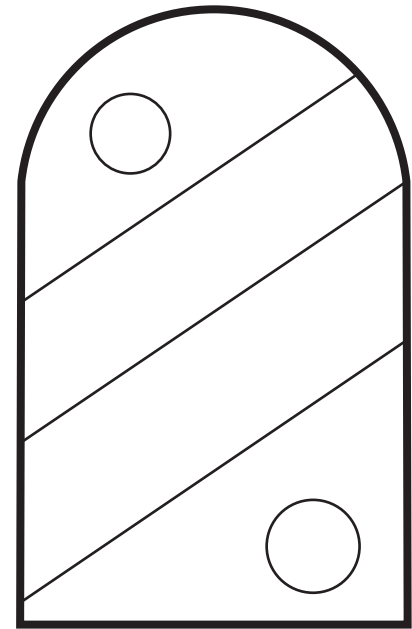

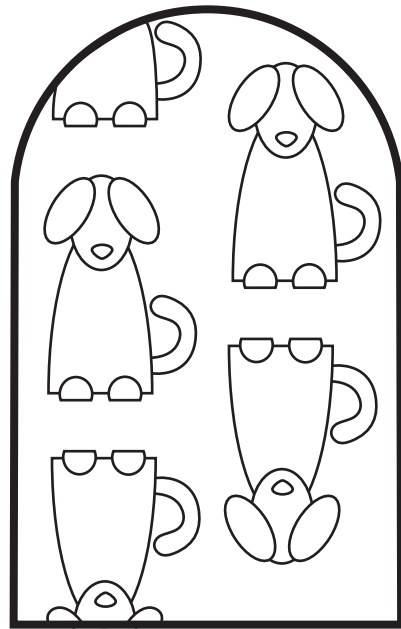

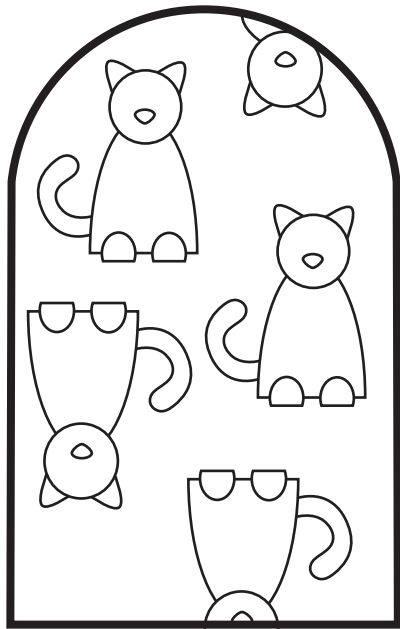

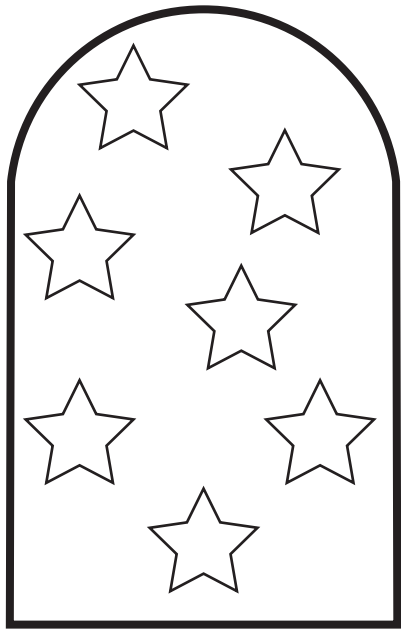

## Directions for Game:

Lay all the popsicles down on a flat surface, with the blank sides facing up. Arrange in three rows of four blank popsicles. Player 1 turns over one popsicle, and then another. If the patterns match, Player 1 collects the matching popsicles and goes again. If the patterns don't match, return the popsicles to their upside-down position, and Player 2 gets a turn. The player who finds the most matches is the winner! Good luck and have fun!

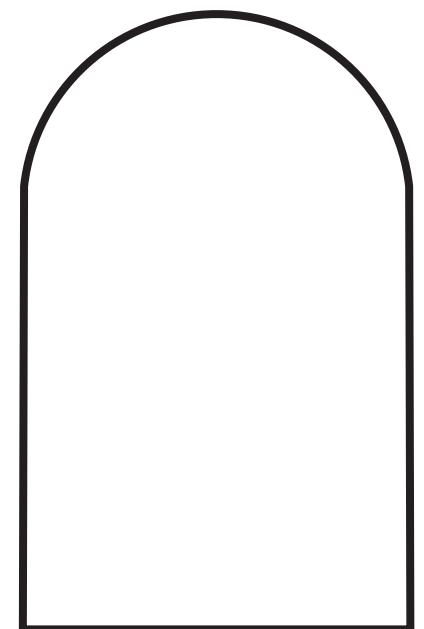

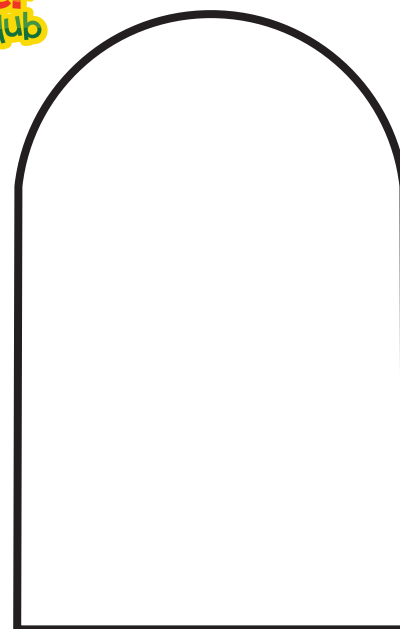

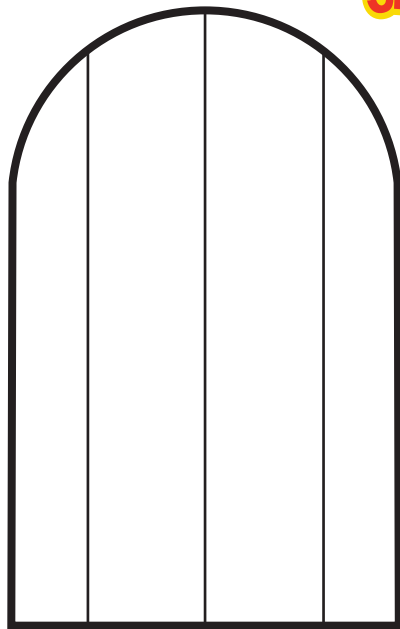

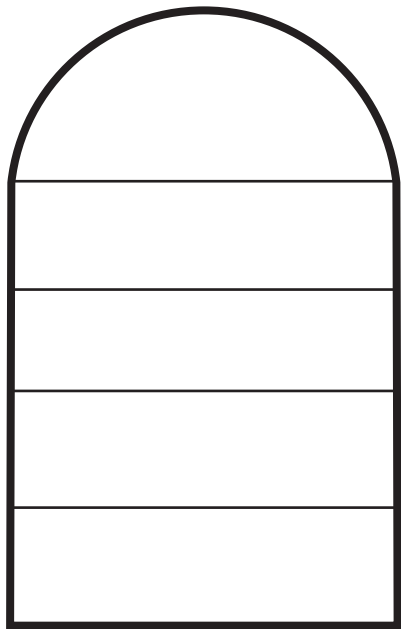

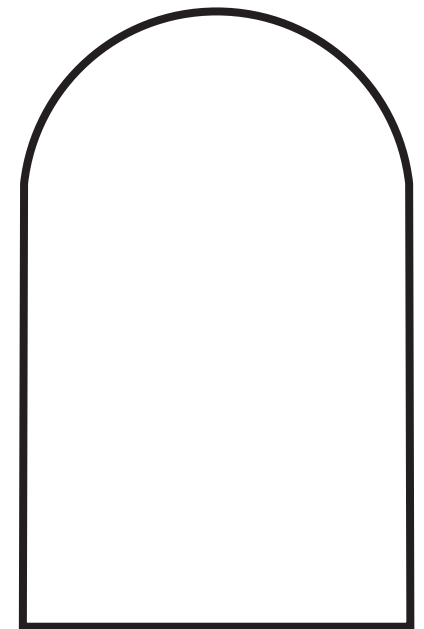

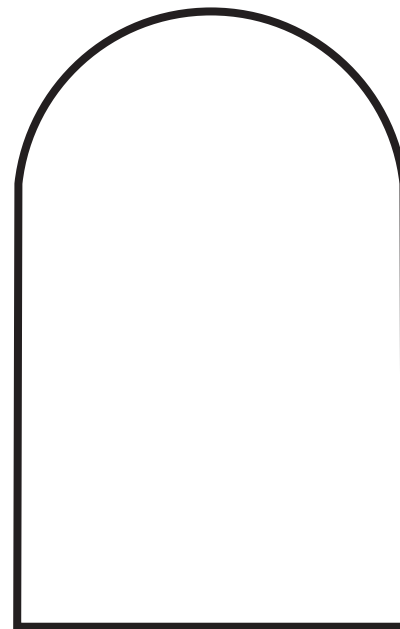

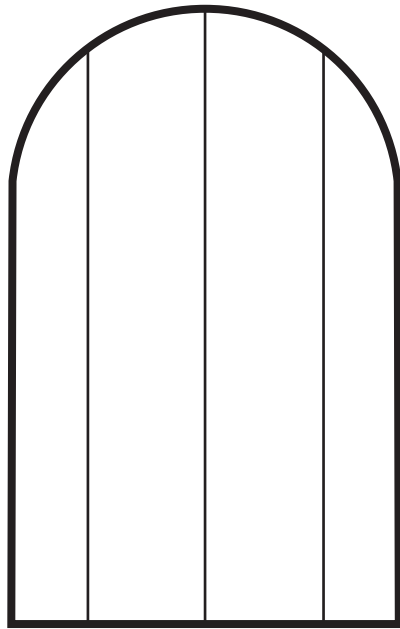

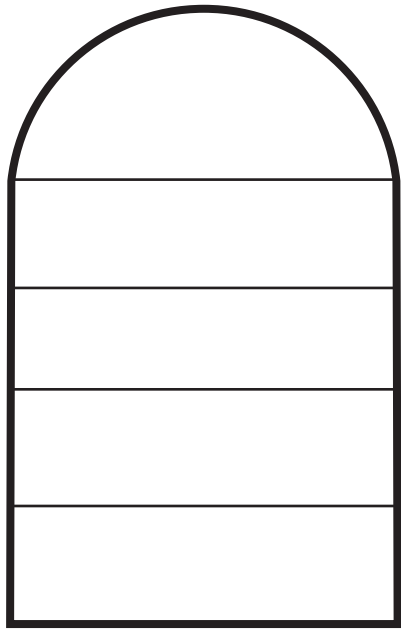

## Popsical fronts

Color each matching pattern the same way.

**Popsical fronts**  
Color each matching pattern the same way.

**Popsical fronts**

Color each matching pattern the same way.

**Use these for the popsical backs**

Print 12 popsicle backs and color them all the same.
